Get ready for your trip to the Hill with CMSA

Public Policy Days in Washington, DC, Are April 27 – 28, 2010

“De-Mystifying the Legislative Process: How Case Managers Can Effect Change”

Join us for a workshop and day on the Hill, the only legislative workshop and fly-in for case management professionals to educate Congress on issues impacting the industry.

The full-day education session will help CM professionals develop and improve their grass roots initiatives with the latest tips and techniques from experts in the field. The next day, attendees will go to Capitol Hill with fellow CM professionals from CMSA's Public Policy Committee to share our educational message and demonstrate how every member can help advance case management.

The event is open to any CMSA member, staff person or volunteer who is passionate about association issues and wants to make a difference, as well as meet and network with fellow advocates from across the country.
