Lead Management Solutions

Don't let the dollars you

spend on exhibiting go to waste!

The Optium™ S400 is the new standard in lead retrieval. This compact, lightweight unit is designed to fit easily on any exhibit booth counter. Leads are instantly captured via an on-board USB drive which allows for quick and easy follow-up. The optional custom lead form printout makes lead qualification a snap. All contact and demographic information is safely backed up in its internal memory.

Requires electricity.

The Optium™ TS600 adds a full color touch screen with easy-to-use onscreen electronic qualification to the Optium product line. The TS600 includes a paper printout as well as an on-board USB drive to instantly capture leads and allow for quick and easy follow-up. Attendee demographic information and survey responses are safely backed up in its internal memory. Standard onscreen qualification is included. If custom questions are desired, please contact our Lead Management Specialist for the custom survey template.

Requires electricity.

The Optium™ M800 reader caters to exhibitors who require a mobile method for capturing information and instant access to that data. The M800 is a handheld wireless unit that immediately sends leads to a secure, password protected website. Lead follow-up can begin immediately and booth activity can be monitored, in real time, from remote locations. A full color touch screen also allows for onscreen electronic qualification through a standard or customized survey. If custom questions are desired, please contact our Lead Management Specialist for the custom survey template.

Battery Powered - No electricity required.

Legacy Standard This tabletop unit electronically reads the attendee's ExpoCard™, stores the information in its internal memory and provides an immediate printout. By customizing this printout, the exhibitor may specify questions to augment the standard lead data (optional). Exhibitors retain the printout and have the option of transferring the data to a USB drive.

Requires electricity.

ExpoCard™ Connect For exhibitors that want optimum customization and qualification using their laptop or PC, ExpoCard Connect gives exhibitors the option to use a standard set of key qualifiers or to fully customize an in-depth survey which they can use to qualify each booth visitor. Contact information can be quickly edited for accuracy and the large notes field provides for additional in-depth information capture. Each package includes software, a cable connector and badge reader. Laptops are not included but available under our "Full Service" option - call for details. Please indicate your desired survey level when placing your order. ExpoCard Connect runs off a USB stick and no software installation is required.

NOTE: Not all products offered at all shows. For Assistance Call 866.297.5246 or 800.787.0475
